

# SwiftWing Procyon FT

## Cost effective high performance Network Packet Broker

### Overview

SwiftWing Procyon FT(Frame Transfer) is commonly referred to as packet broker. Ethernet frames forwarded to each port from an external device can be forwarded to any multiple ports in the device. In addition, filtering, VLAN address modification, addition, and deletion can be easily performed via the GUI by using the header contents in the packet as a key. It has a send-back warranty for 5year.

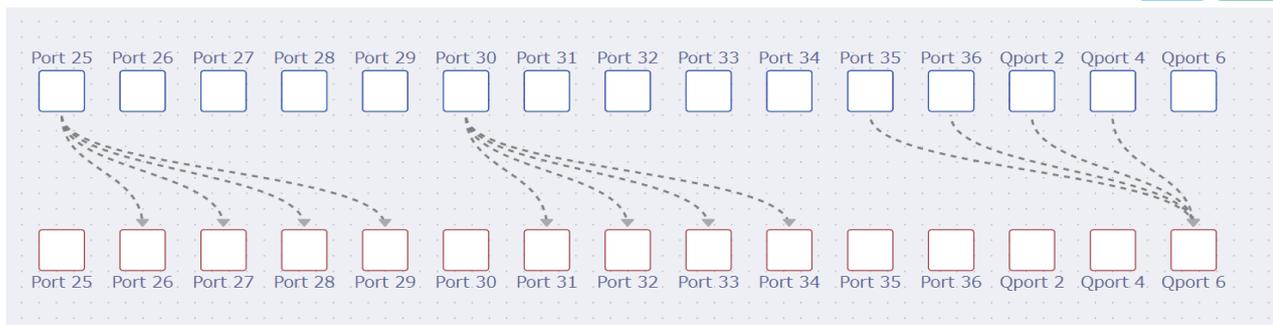

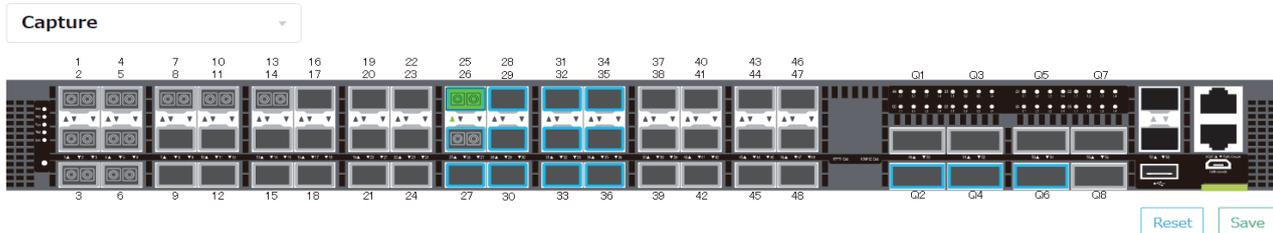

### Features

- Easy operation with Web GUI
- Can switch between GUI mode and CLI mode
- Intuitive and simple user interface with just mouse control for most of the major settings such as port groups, paths, statistics, etc.
- Operation screens are bilingual in English and Japanese
- Remote Management
- SNMP monitoring (port status、trap)
- Remote Syslog
- Five years send-back warranty

#### PATH CONFIGURATION

Select Port Group
